INTERNATIONAL INSURANCE SOLUTIONS

Valentinos Alexiou

Age: 34

Nationality: Greek

Status: Single

Country of residence: Greece

Occupation: Commercial Airline Pilot

Cover: Mediterranean Plan - Comprehensive

Valentinos is a busy pilot for a private Greek airline who fly all around Greece and Europe. His company made the decision to purchase an Optimum Global company policy for their staff because they felt they could trust a well established UK brand name. All the senior staff and pilots in the company have been covered for nearly five years.

As a Greek national who travels a lot for his job, Valentinos likes to spend his free time at or near to his Athens home. He likes to relax on the local beaches but also enjoys swimming, going to the gym, movies and playing computer games.

Valentinos had to recently make a claim for physiotherapy, to help mend a broken ankle which happened when he was on a stopover in Prague. He was extremely pleased to say that the whole process was handled very smoothly and particularly as there were two countries and several medical facilities and specialists involved. Valentinos was very grateful that he was back flying and at the gym within a matter of weeks.
