

OPTIMUM GLOBAL

INTERNATIONAL INSURANCE SOLUTIONS

Maria Mendoza

Age: 35

Nationality: Venezuelan

Status: Married

Country of residence: Chile

Occupation: Senior Bank Manager

Cover: Worldwide Plan - Supreme

Maria first met her Chilean husband at a banking conference in Venezuela and after 4 years they married and she moved to Chile where she was able to transfer to a local bank branch in the same company. She is in her mid thirties and very keen to start a family now her career is well established. For this reason one of the main priorities in her decision to purchase health insurance was that it had a good maternity cover benefit. Maria and her husband did lots of research and eventually chose Optimum Global's Worldwide Plan and Supreme cover level.

Maria works in an investment bank which she enjoys very much but the hours are long. Outside of work she socialises with a wide group of people. There is a very strong expatriate community in and around Chile but after 4 years Maria now sees herself as a local. Maria often holds dinner parties for friends and relatives serving up a combination of Chilean and Venezuelan dishes to suit all her guests.

The internet is a great resource for Maria and she uses it a great deal at work for research purposes, buying online and sending emails. If she has a question regarding her Optimum Global policy she simply sends an email and receives a response within a few hours or makes a quick call and is called back for free.
